Countries Eligible: Any country not prohibited by 22 C.F.R. 126.1

Value of Program:

1. \$33B in defense articles licensed during FY2012

 - a. However, new Sec. 38(f)(5), AECA, allows the President to approve the transformation of any MDE within the 600 series CCL to a defense articles if determined to be in the U.S. national interest and the SFRC and HFAC are notified IAW Sec. 36(b)(5)(A), AECA.

3. State notifies Congress IAW Sec. 36(c) or 36(d), AECA, as required prior to issuing any license
4. After any congressional notification, PM/DDTC issue export license to U.S. industry
5. PM/DDTC manages end-use monitoring program (Blue Lantern) for DCS IAW Sec. 38(g)(7), AECA, normally with the country team political-military attache

Example: Lockheed-Martin sale of F-16s to UAE, Boeing sale of C-17s to UK, or sale of F-15s to Singapore. These turned out to be hybrid sales meaning the major end-items were purchased commercially via DCS directly from U.S. industry while the high technology components, weapons, electronics, training, and initial support repair parts were purchased via FMS from DoD.

Value of Program:

Restrictions:

Key Players: SCO, CCMD, DSCA

Execution:

1. Country is authorized to receive a VIP tour generally in the U.S.
2. The SCO is required to provide an escort officer
3. A request is submitted via the CCMD to the applicable MilDep to use IMET or FMFP funding allocated to the country
4. DSCA approves the use of this funding to cover the expenses of U.S. tour director

Example: It is determined important by the SCO, CCMD, and MilDep that the developing partner nation conducts a whirl wind tour of U.S. installations with the group consisting of senior military officers and civilian personnel. The purpose of the tour is to establish relationships and also see and learn from viewing U.S. training facilities. None of the personnel have been to the U.S. before thus requiring a U.S. escort/tour director to ensure transportation, living services, and access. The use of a SCO member already fluent in the country's language appears to be the best choice for the tour director duty. The SCO is not routinely funded to conduct this type of service.

Countries Eligible:

1. As originally justified in the SecState applicable fiscal year Congressional Budget Justification (CBJ) and later, after appropriation, allocated by DoS/DFA to DoD/DSCA for implementation and administration
2. Since FY2010, FMFP, in consultation with Congress, may be used by SecState for support of foreign security forces. Pseudo LOA-like procedures are used for this very limited authority. State/PM issued Grant Military Assistance Guide (GMAG) [classified CUI-FOUO] was promulgated via SECSTATE msg 102112Z Apr 14 to the country team P-M and SDO/DATT officers in April 2014. This expedited procedure process is referred to as State Department Directed-FMFP procurement (SDD-FMF) and initiated by State Dept using MOR and MOA procedures with DoD/DSCA.

Value of Program: FY2016 -- \$6,025M in grant aid

Restrictions:

1. DoD/DSCA authorized to approve funding of DCS with FMFP for the following countries: Israel, Egypt, Jordan, Morocco, Tunisia, Turkey, Portugal, Pakistan, Yemen, and Greece [SAMM, C9.7.3]. FMFP is normally used to fund FMS cases and, by policy, its use for DCS is very much an exception. DSCA guidance for the use of FMFP for DCS is further referenced at <http://www.dsca.mil/resources/foreign-military-financing-direct-commercial-contracts-fmf-dcc>.
2. By policy, FMFP should not be used for the purchase of consumable non-lethal articles or services unless a part of a system sale or for subsequent sustainment support.

Key Players: Country team/SCO, CCMD, DoD/USDP/DSCA, DoS/PM, DoS/DFA, OMB,

Execution:

1. Though FMFP is the AECA and S/FOAA-legislated term, the community often uses the terms FMF, FMF credit, FMS credit.
2. Country team/SCO provides recommended funding levels through both the diplomatic and military chains-of-command nearly two years in advance
3. DoS/PM provided CUI-FOUO FMFP procedures within the Grant Military Assistance Guide (GMAG) of April 2014 to all country team pol-mil officers and SDO/DATTs
4. Coordinated by DSCA within DoD/USDP for recommendation to DoS
5. DoS/DFA coordinates within DoS for justifications and entry into the upcoming budget year congressional budget justification (CBJ)

6. After numerous congressional hearings for final appropriation, funding allocated by DFA to DoD/DSCA for implementation and administration generally via the FMS process

Example: F-16 follow-on support for Poland or modification and inspection of H-1 helos and engines originally provided as grant EDA to Hungary. Israeli and Egyptian purchase of U.S.origin defense articles and services.

Foreign Military Financing Regional Funds (FMFRF)

Description: Portions of the FMF are provided for different regions of the world

Purpose:

1. To provide flexibility and responsiveness in implementing parts of the FMF program. It is now becoming more common for some FMF monies to be provided based upon geographic regions. For example; two regional funds of note that have been created over the past couple of years:
 - a. FMF European Security Assistance Fund (ESAF)
 - b. Africa Regional Counterterrorism FMF program (ARCT FMF)

Authorization: Section 23 AECA [22 U.S.C. 2763] & PPD 23

Appropriation:

1. Variable; however, for the two examples from above:
 - a. \$5M for ESAF [FY2016]
 - b. \$10M for ARCT FMF [FY2016]

Guidance:

1. Also variable depending on regional issues; however, there are some commonalities:
2. Much like the FMF Challenge Fund, the monies in in these regional programs are accessed by their various countries through a competitive proposal driven process.
3. There are several common goals/end states desired:
 - a. Enhance deployment capabilities of partner nations
 - b. Strengthen partner nation territorial stability
 - c. Combat hybrid terrorist threats

Countries Eligible: Each regional FMF program has a different group of countries that are eligible; for instance, SCOs in Burkina Faso, Burundi, Cameroon, Chad, Djibouti, Ethiopia, Kenya, Mali, Mauritania, Niger, Nigeria, Senegal, Tanzania, and Uganda can submit proposals for grants from the ARCT FMF. Countries in Europe and Eurasia that have received bilateral FMF within the five fiscal years prior to the year of submission are eligible for ESAF

Value of Program:

Restrictions: These regional FMFs monies are usually reserved for their respective developing countries that receive very little in the way of country specific FMF and these partner nations will need to maintain these capabilities on their own after the initial assistance

Key Players: DoS, DoD, DoD Geographic Commands, Department of State Regional Bureaus, and SCOs

Execution: Variable; procedures are usually promulgated by the respective DoD Geographic Commands and corresponding State Regional Bureaus

Example:

Foreign Military Sales (FMS)

Appropriation: None, only an authority using country cash, FMFP or DoD SC program funding

Guidance:

1. FMS sales are DoD's response to a country's letter-of-request (LOR), all subject to the technology transfer decision process, approval by DoS, and advance notification by DSCA to Congress for approval
 - a. Proposed FMS LOAs are generated by the DoD implementing agency (IA) which will either provide from inventory or enter into contract once approved by the USG and the purchasing country.
 - b. FMS LOAs have standard terms and conditions for the sale.
 - c. Purchasing country approval will also include any required funding determined necessary for implementation.
2. Pseudo LOA sales are DoD's response to a USG memorandum-of-request (MOR) to be funded by the requesting agency, also subject to technology transfer decisions, concurrence of DoS, and advance notification by USDP and USDC to Congress.
 - a. The proposed pseudo LOA is generated by the DoD implementing agency which will provide from inventory or enter into contract once approved by the USG requesting agency.

3. FY2014 -- \$34.2B in total sales (both FMS and pseudo-LOA) to include \$31.2B in FMS sales.
4. FY2015 -- \$47.0B in total sales (both FMS and pseudo-LOA) to include \$40.9B in FMS sales.
